	Upper-Level Elective Course*	

*300-400 level course in social sciences (e.g. PSY328 or SWK408) not applied elsewhere in the major

PSYCHOLOGY MINOR

Students of psychology often find that their studies overlap with other disciplines in the social sciences. Psychology provides well-balanced that connects to other fields. The curriculum includes introductions to the basic concepts utilized in psychology, foundations of clinical practice, appreciation of societal issues and culture, and development across various stages of the lifespan. Students may graduate with a minor in psychology by taking six courses which include two upper level electives from the upper-level elective (300-level and beyond) in courses relevant to the field of psychology. These elective courses do not necessarily need to be taken in Psychology, however, and can include courses from other programs such as social work, education, criminal justice, music therapy, etc.

Psychology Minor Requirements		
Course Number	Course Name	Semester Completed
PSY 101	General Psychology	
One Developmental Psychology Course	PSY 207 Child Development, or PSY 215 Adolescent Development, or PSY 217 Lifespan Development
